### PROCLAMATION!

In view of the fact that there is an unwonted stringency in the money market, that values are lost, and in view of the fact that the great and original cause of the aforesaid stringency lies in the hoarding of money by all alike, rich and poor, to such an extent that some of the safe deposit vaults are over-run with the savings of those afraid of the banks, now, therefore, by virtue of our office, and by virtue of the great need of the American people, we do proclaim that the salvation of the country, depends upon the public at once commencing to spend their money freely, and thereby put it into circulation. In the furtherance of this much to be desired end, we shall, for some time to come offer our entire stock of medium and high grades of Furniture at Hard times prices. The stock is all new and complete, and the selection is unbroken. There is no chance like the present to put your money in circulation, as we turn it over at once for new stock, thereby starting the wheels of industry in the factories, and through this channel you SAVE THE COUNTRY FROM RUIN. Remember, everything first-class and at ruinous sacrifices.
